PRE-DANCE PROGRAM

The goal of the Pre-Dance Program is to introduce children ages 3 to 6 to the basics of dance movement. They are exposed to many varieties of music and movement with an emphasis on ballet as the basis of all other dance. The children explore the use of space. They are encouraged to develop strong and flexible limbs, good balance, and body awareness.

The youngest children ages 3 to 5 are inspired to use their creativity through the use of rhythm sticks, musical instruments, poetry, dance books, and DVDs.

All classes are geared towards the "uniqueness" of the children. All classes are planned according to the muscular development of the children.

Parents may observe through hallway windows. Recital participation is optional. Please consider the following before you bring your child to class each week:

- 1) Please be certain your child uses the bathroom before they enter the dance room.
- 2) Please remove all small objects (i.e. - jewelry, hairpins, small toys, money) from your child before class. Please tie, cut, or tack all ribbons on shoes as well.
- 3) Please try to be prompt in bringing and picking up your child for class. If you are delayed, please call as a courtesy.
- 4) Please know that some days children just "don't feel like it". If your child is upset it does affect all other members of the class. You are welcome to make up in any one of the other pre-school classes.
- 5) Please refrain from bringing children who are ill to class. Again you can make up in another class.
- 6) All elastic at the top of each child's shoe should be knotted, cut at an appropriate length and tucked in. Please ask your teacher for instructions.
- 7) In adherence to the Fire code and for the safety of your child and all other children - the narrow hallway must be kept clear at all times. School bags, dance bags, etc. should be kept in the dressing room. Kindly leave baby strollers outside of the studio.

Regards,

Linda
